

iHealth Innovative Solution LLC (iHealth) is a mission-focused digital health transformation company helping healthcare, public health, research, and government organizations modernize mission-critical systems. We deliver secure, scalable solutions across health IT, cloud modernization, cybersecurity, artificial intelligence, research enablement, and enterprise operations.

As an SBA-certified 8(a), HUBZone, District of Columbia Certified Business Enterprise (CBE), ISO 9001:2015-certified, and CMMI Level 2-appraised company, iHealth combines small business agility with disciplined, audit-ready delivery. We help organizations harness next-generation technologies to improve decision-making, strengthen health system resilience, enhance user experiences, accelerate research, and drive measurable mission outcomes. At iHealth, we turn complexity into clarity by aligning strategy, technology, security, data, compliance, and execution.
